Assignment 2

Name: Apsara Chamari Reid

Batch No - DS2306

21. The correct answer is b). Linear regression is about determining the best predicted weights by using the method of ordinary least squares.

22. The correct answer is d). The value R^2 = 1, which corresponds to SSR = 0

23. The correct answer is b). B0.

    The point where the line crosses the y axis is called the intercept that is B0.

24. The correct answer is d). The top-left plot.

25. The correct answer is d) d, b, e, a, c

26. The optional parameters to LinearRegression in scikit-learn are:
    b) fit_intercept
    c) normalize
    d) copy_X
    e) n_jobs

27. c) Polynomial regression

28. The answer is
    A). You want graphical representations of your data.
    c) You need more detailed results.

29. The answer is d) scipy

30. The answer is b) Seaborn
